

## Healthcare Brokerage Event at MEDICA 2009

### About the event

On the occasion of MEDICA 2009, the global No. 1 meeting place for the medical sector, the Healthcare Sector Group of the Enterprise Europe Network will organise a Brokerage Event. The aim is to assist enterprises, universities and research institutions in finding partners in Europe for product development, manufacturing and licensing agreements, joint ventures or other types of partnership.

Participants will have the opportunity to:

- Use the event to initiate new business
- Meet providers of innovative technologies from throughout Europe and beyond
- Enter into contact with potential partners for future co-operation
- Establish cross-border contacts for long-term business relationships

All at one location!

### How to participate

Each participant must register and provide a technology profile describing either a technology offer or a technology request. This will be published in the online catalogue of the Brokerage Event. The catalogue is updated continuously as profiles are submitted and forms the basis for selecting partners for meetings and making appointments at the event. About one week prior to the event, each participant will receive an individual meeting schedule.
